SUMMARY

Corporate Finance graduate pivoting into corporate tax and transfer pricing, with hands-on experience analyzing U.S. corporate tax filings and quantifying tax credit eligibility for 50+ corporate clients. Strong technical foundation in financial statement analysis, tax research, and regulatory compliance, paired with advanced Excel modeling skills applied to tax and transfer pricing analysis. Currently deepening expertise in international corporate tax frameworks and OECD BEPS principles. Skilled at translating complex tax, financial, and regulatory data into clear, decision-ready insights for stakeholders and senior management.

SKILLS

Corporate Tax & Transfer Pricing: Tax Technical Analysis, Transfer Pricing Methods (CUP, TNMM, Cost-Plus), Cross-Border Tax Structuring, BEPS & OECD Guidelines.

Tax & Financial Analysis: Financial Statement Analysis, Corporate Income Tax Analysis, Tax Credit & Incentive Analysis, Regulatory Compliance Review.

Tools & Technology: Microsoft Excel (Advanced), Power BI, Microsoft PowerPoint.

Professional Competencies: Stakeholder Communication, Cross-Functional Collaboration, Structured Problem-Solving

EXPERIENCE

US Tax Associate

Hyderabad, India

AlliantGroup

September 2023 – June 2025

- Performed technical tax return and financial statement analysis for 50+ U.S. corporate clients, conducting due-diligence-style reviews under IRC Section 41 to assess eligibility and quantify R&D tax credit claims.
- Built and maintained Excel-based tax models to analyze cost structures, qualifying expenditures, and credit calculations, contributing to average client tax credit claims exceeding USD 10,000 per engagement.
- Conducted technical research on federal tax code provisions and produced structured analytical reports, translating complex tax, financial, and regulatory data into clear, decision-ready insights for senior managers and client stakeholders.
- Contributed to process automation initiatives, reducing tax analysis and report preparation time by ~15% while improving efficiency and standardization.

Technical Writer

Hyderabad, India

Progress IT Solutions

October 2022 – April 2023

- Analyzed and validated software installations and configurations by independently testing systems before documentation, ensuring technical accuracy and process reliability.
- Developed structured technical and compliance-style documentation, translating complex, rule-based system behavior into clear, step-by-step guidance for professional users.

EDUCATION

Master of Management (Corporate Finance), EMLV Business School - Paris, France | September 2025 – August 2027

MBA (Finance), CMR College of Engineering & Technology - Hyderabad, India | September 2021 – August 2023

Bachelor of Business Administration, Bhavans Vivekananda Degree College - Hyderabad, India | June 2018 – April 2021

PROJECTS

Forecasting Stock Index Prices using an ARIMA Model

January 2023 – April 2023

Built time-series ARIMA models using 5 years of historical market data to forecast NIFTY 50 and SENSEX indices. Interpreted results to generate data-driven investment insights and support trend-based analysis.

Impact of the US-China Trade War on Manufacturing Sector

January 2021 – April 2021

Analyzed revenue and performance data of manufacturing firms using statistical techniques to evaluate the impact of tariffs, trade disruptions, and cross-border pricing pressure, mirroring core transfer pricing and customs valuation dynamics. Assessed supply-chain effects to derive sector-level performance insights.
